

WHO WE ARE

Fluid Design is a Design Studio focused on providing professional know-how in Design, Consultancy, and Project Management for Wellness & Pools and Landscape & Water Features.

Established as part of Al Miyah Holding Group, which was founded in 1980, it has been combining creative design skills & technical expertise to realize a wide variety of Wellness & Water Feature projects in the most famous spots in the MEA region.

OUR SERVICES

DESIGN

Concept Design

Zoning Analysis, space optimization and concept scheme. Preliminary systems selections and preliminary budget study.

Design Development

Taking the concepts to a more tangible level through revisions and workshops, delivering drawings, perspectives, detailed study, and analysis.

Tender Documents

Providing all relevant and required official documentation including tender objectives, drawings, specs, BOQ and schedule.

CONSULTANCY

Assisting our clients as a 3rd party consultant, providing the proper knowledge and expertise needed in the field.

PROJECT MANAGEMENT

We are involved in Project Management to ensure that the Execution phase is conducted in line with our initial concept and detailed planning.
